PRODUCT OWNER – SECURITIES FIRM

- In-house position Leading Securities House
- Digital Transformation Project
- Attractive remuneration

Our client is a leading securities house with strong presence in Asia. Due to rapid business expansion, they are now looking for a Product Owner to oversee their E-commerce.

Your main responsibility will focus on leading in-house business users to manage product roadmap and backlog of a large-scale digital transformation project. You will determine user stories and features priority to create sprint plans as well as prioritizing requirement with stakeholders and map them to IT services for implementation. You may also develop product owner capability and manage daily operation of scrum team.

To qualify for this position, you must have University Degree in either Businesses, Computer Science, Information Technology or related disciplines with at least 3 years of Business Analyst or Product Owner experience in financial institutions or consulting companies. You should have experience in Agile and waterfall projects methodologies. You should also have fluent skills in English, Mandarin and Cantonese.
