RISK OFFICER – SWISS PRIVATE BANK

- Leading Swiss Private Bank
- Pre/Post-trade Investment Suitability Monitoring
- Regional Investment Risk position

Our client is an International Private Bank with a strong presence in Asia. They are currently looking for a young and energetic Investment Risk Support to join their Investment & Risk Control team in Hong Kong.

Reporting to the Department Head, your main responsibility is to support the monitoring of pre and post-trade suitability of investments, and you will be involved in the compliance with risk disclosures, working closely with the Front office to handle enquiries from the Clients and make sure the selling process in accordance with internal policies and procedures. Also, you will be supporting the investigations regarding the investment risk as well as other ad-hoc projects in Process review and data analysis.

To qualify for this position, you should have University Degree in Finance, Business or any related discipline with at least 3 years of experience in Private banking. You should have good understanding of investment suitability and data analytics. You should also have excellent skills in English, Chinese or any Asian Languages.
